

Wednesday, 21st February

<u>Time</u>	<u>Speaker</u>	<u>Talk</u>	<u>Affiliation</u>
17:00 – 18:00	Registration		
18:00 – 19:00	Patrick Augustijns	Supersaturation and human oral absorption	University of Leuven
19:00 – 22:00	Dinner		

Thursday, 22nd February

<u>Time</u>	<u>Speaker</u>	<u>Talk</u>	<u>Affiliation</u>
08:15 – 08:45	Registration		
08:45 – 09:00	Konstantin Tsinman	<i>Welcome address</i>	Pion Inc.
09:00 – 09:40	Hans Lennernäs	<i>Parenteral release and in-vitro – in-vivo correlations</i>	Uppsala University
09:40 – 10:20	James Mann	<i>In-vitro inter-laboratory comparison and modelling of precipitating drugs in biorelevant media</i>	AstraZeneca
10:20 – 10:50	Break		
10:50 – 11:30	Thomas Rades	<i>Amorphous drugs and solid dispersions: Dissolution, supersaturation and bioavailability</i>	University of Copenhagen
11:30 – 12:10	Bernard Van Eerdenbrugh	<i>Ranking Itraconazole Formulations Based on the Flux through Artificial Lipophilic Membrane</i>	Novartis
12:10 – 13:50	Lunch		

Thursday, February 22nd continued

<u>Time</u>	<u>Speaker</u>	<u>Talk</u>	<u>Affiliation</u>
13:50 – 14:30	Konstantin Tsinman	<i>Flux measurements and in-vitro – in-vivo correlations</i>	Pion Inc.
14:30 – 15:10	Jesper Østergaard	<i>Surface dissolution imaging</i>	University of Copenhagen
15:10 – 15:40	Break		
15:40 – 16:10	Bart Hens	<i>In Vivo Predictive Dissolution (iPD) to Advance Oral Drug Product Development</i>	University of Michigan/ University of Leuven
16:10 – 16:40	Wayne Matthews	<i>The use of in-vitro methodologies within Industrial Drug Development to predict drug behaviour and product performance</i>	GSK
16:40 – 17:20	Arik Dahan, Noa Fine-Shamir	<i>Biorelevant solubility-enabling formulations for oral lipophilic drugs: The solubility-permeability interplay</i>	Ben-Gurion University/ University of Michigan
17:20 – 17:30		<i>Closing Comments</i>
